Survey No. 2676.

Instrument.

This survey was made with an A. Leitz transit.

The courses were deflected from the true meridian as determined by direct solar observations.

The distances were measured with 650 and 50 ft. steel tape.

Note.

The disagreement between these field notes and the Am. location certificates is due to errors in the latter.

REPORT.

The S. E. Cor. Sec. I T. 3 S. R.42 E.M.D.B. and M. is porphyry stone 7X6 ins. showing 9 ins. above the ground chiseled I on the N. and IIIII on the S.

Cor. No.I Survey No. 2660 Louise Fraction Lode post 4 ins. sq. 2 ft. above ground chiseled I-2660.
