Amended Survey no. 2574

This survey was made with a Gurley Light Mountain transit. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with a 400 ft. steel tape.

Note:- The disagreements between these field notes and the original survey are due to errors in the latter.

No local ties from corners of this claim were available

Report.

The W.1/4 cor sec. 19 T.2 S.R.43 E M.D.B and M. Was found in place being a stone set in the ground in mound of stones 12x8x7 inches showing above ground and properly marked.
