Instrument.

This survey was made with a Dietzgen transit. The courses were deflected from the true meridian as determined by solar observations. The distances were measured with 6 ft. and 500. ft. steel tapes.

Report.

I. The N. E. Cor., Sec. 12, T. 3 S., R. 42. E. M. D. B. and M. is a porphyry stone 7 x 9 ins., showing 6 ins. above the surface, chiseled 1 on North side and IIII on South side.

II. Cor. No. 1, Sur No 2396 Rabbit Fraction lode is a pine post 4 ins. square, showing 2 ft. above the surface, scribed 1-2396.

The lines of this survey were determined directly on the ground.

The lines of conflicting claim were determined directly on the ground, the corners of which were found in place.

F. A. Lucas
U. S. Deputy Mineral Surveyor.
