This survey was made with a Gurley light mountain transit. The courses were deflected from the true meridian as determined by direct solar observations, the details of which are returned with field notes of my Survey No.2703.

The distances were measured with 200 ft., and 300 ft. steel tapes.

------ R E P O R T. ------

The ¼ Sec.Cor.between Sec.31, T. 13 N., R. 25 E. and Sec.6, T. 12 N., R. 25 E., M.D.M., to which Cors.No.1 of the several locations of this claim are tied, is a limestone 16 x 8 x 4 ins., set in ground in mound of stone, marked "¼" on N.side.

The discrepancy noted between these field notes as to course and length of township line between the N.E.
