west boundaries were obliterated and the distances between those remaining were so much at variance with the notes furnished me by the Surveyor General that I found it absolutely necessary to resurvey all the exterior of this township in order to close my own work.

Accordingly I began July 26th 1904 At the cor. to townships 37 and 38 N. Ranges 69 and 70 E. and set off 41° 5' on the latitude arc and 19° 28½' on the declination arc and at 6h 52mi. L. M. T. determine a true meridian with the solar. Thence I run
