General Description

This township has some very rocky soil and also good 2nd rate loam in the sagebrush flats.

It is covered with a growth of scrub cedars and a few scattering nut pines about 8 to 14 ft high.

The great divide and rim of Basin runs across the southern end of the Fractional Twp.

The telegraph line running S.E. through sec 9 runs to St. George in Utah.

Herbert B. Maxson
U. S. Deputy Surveyor
