DEPENDENT RESURVEY, T. 3 S., R. 69 E.

CHAINS	
	The following field notes are those of the dependent resurvey of the exterior and subdivisional lines of T. 3 S., R. 69 E.
	The south and east boundaries were surveyed by U.S. Deputy Surveyor H. B. Maxson in 1901. The north and west boundaries were surveyed by Compassman S. T. Morse under T. H. Lowe's contract in 1902. The subdivisional lines were surveyed by U.S. Deputy Surveyor T. K. Stewart in 1902.
	Before restoring the corners, the lines of the original surveys were retraced and diligent search made for any evidence of the original corners and other calls of the field note record.
	Lines connecting the corner positions were run by the random and true method. In order to simplify the record, the true line notes only are supplied which refer to the completed survey.
	The survey was executed in accordance with specifications as set forth in the Manual of Surveying Instructions, 1947, and the Special Instructions dated October 11, 1966.
	The direction of the lines of this survey were determined by azimuth taken from U.S.C.&G.S. triangulation station "BLUE MOUNTAIN" and Nevada Highway Department triangulation station N.P.D. "SLUG" (identical with the northwest corner of the township) and supplemented by altitude observations of the sun. The vertical angles of measurements made on the slope were ascertained by a clinometer in good adjustment; the horizontal equivalents only are entered in the field notes.
	The geographic position for the southeast corner of the township is latitude 37° 38' 10.6" N. and longitude 114° 12' 26.1" W. as computed from U.S.C.&G.S. triangulation station "BLUE MOUNTAIN" which is located in section 33.
	The mean magnetic declination was found to be 15½° E.
	DEPENDENT RESURVEY OF THE SOUTH BOUNDARY OF T. 3 S., R. 69 E., MOUNT DIABLO MERIDIAN, NEVADA.
	Reestablishment of the Survey Executed by H. B. Maxson, U. S. Deputy Surveyor, in 1901.
	From the cor. of Tps. 3 and 4 S., Rs. 69 and 70 E., monumented with an iron post, 2½ ins. diam., set, mkd. and witnessed as described in the field notes of T. 3 S., R. 70 E., resurveyed concurrently under this same group.
	N. 89° 46' W., bet. secs. 1 and 36.
	Desc. 30 ft. along a S. slope, through dense timber.
15.50	Wash, 15 lks. wide, 2 ft. deep, drains S.; asc. 130 ft. along a S. slope.
