

## Letter 16

03/03/01

Dear Pam Jarnecke,  
The Phoenix Project is a bad

idea because it;

- ① Defaces the earth forever.
  - ② Defiles the earth forever.
  - ③ Defiles the water forever.
  - ④ takes from the people forever esp. native \$1K
  - ⑤ takes from the earth forever
  - ⑥ gives back what? A consumable item to be used up. (a limited resource not for forever)
  - ⑦ puts money in the bank for somebody(?) but not for forever.
  - ⑧ demoralizes forever.
  - ⑨ keeps somebody employed but not forever.
- Do the math. It just doesn't add up.

Phoenix Project is a bad idea. We can live without it forever. For sure.

Sheryl Richards

Suggestion: learn to live with less.
