### NOTICE

Addendum to Competitive Geothermal Lease Sale NV-GT-03-06 specifically applying to Pony Express Route NSO Stipulation for Leasing Geothermal Resources Managed by the Carson City Field Office (PE NSO CC Stip).

The intent of the special stipulation for no surface occupancy is to prevent visual intrusions that would have a significant effect, such as the construction of a power plant within one mile of historic roads or trails. Low profile facilities such as wellheads, pipelines, etc. may not be a problem. On a site specific basis, lessees may not be prohibited from drilling wells or constructing pipelines within one mile of historic roads or trails.

If you have any questions please call Rich Hoops at 775.861.6568.

Stephen D. Salzman  
Acting Deputy State Director,  
Minerals Management
