

Permit Number: NV-050-04-049
Applicants Name: Tripoli Vegas Rocketry Club
Date of Activity: March 19-20, 2004
Location of Activity: Jean/Roach Dry Lake Special Recreation Management Area
BLM Contact: Bob Bruno 702-515-5078

Description of Activity:

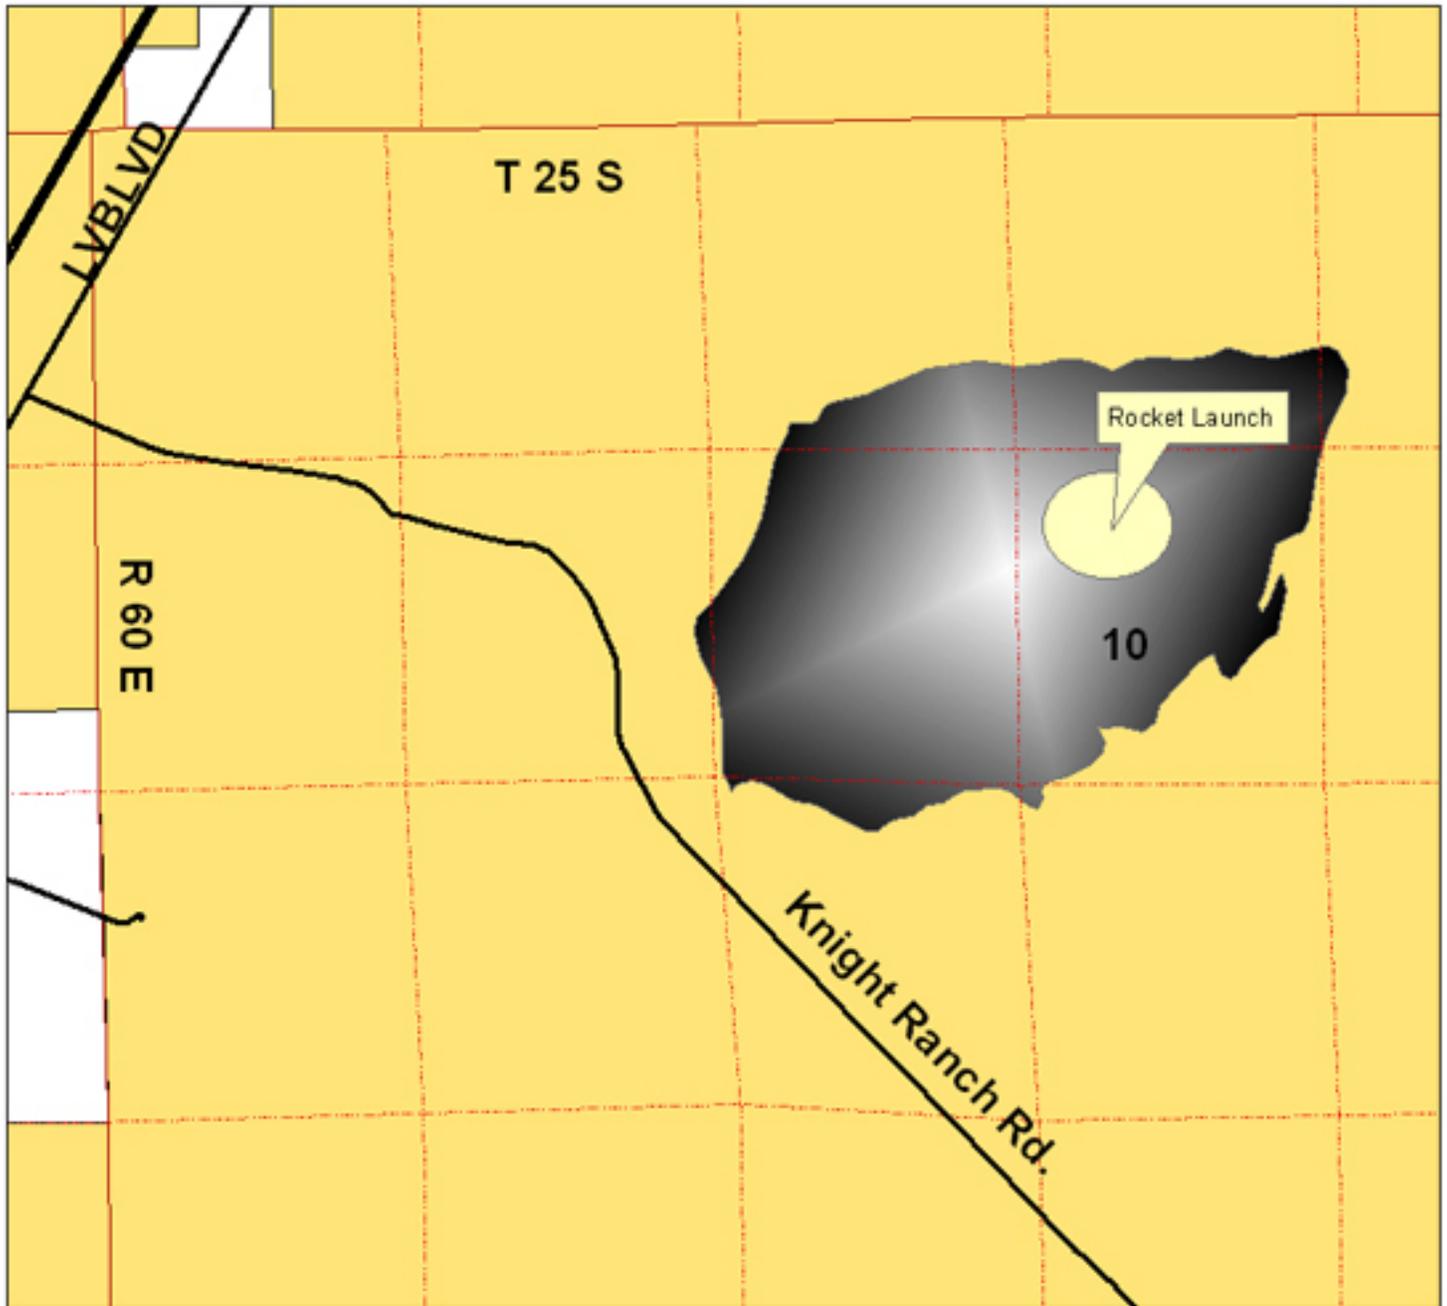

Our office received a SRP application from the Tripoli Vegas Rocketry Club, who propose to conduct their club's annual spring regional high power competitive rocket launch at the Jean dry lake bed, over the weekend of March 19-20, 2004. This year's event would consist of 40 to 50 entrants and approximately 75 event-related spectators, families and friends.

All entrants must be over 18 years of age, and all would compete in 3 certification levels, depending on manufacturer, motors, designs, and aerodynamics. Rockets would stand 2 to 8 feet in height, and would be powered by ammonium perchlorate, a solid rocket fuel. Tripoli Vegas would have a FAA standing waiver to launch to 10,000 feet. Rockets exceeding that altitude [to 20,000 feet or higher], would require a courtesy call-in waiver to McCarran Airport Traffic Control, advising of a rocket launch within 10 to 20 minutes.

Each rocket would be inspected before any launch. Strict flight line protocol would be enforced at the launch site by event officials. All parking, registration, and staging would occur away from the active launch site. All spectators would be limited to the parking area near the launch site. All activities would occur on the un-vegetated dry lake bed only.

Legal Description: T. 25 S., R. 60 E., Section 10.
