San Francisco, CA 94188-4688

Dear Will Roger Peterson,

After review of the special stipulations for the 2004 Burning Man event, three minor errors were discovered. The current numbering system, which starts at number 13, was intended to be a continuation of the 16 conditions and stipulations on the back of the permit. The numbering system will be changed to reflect only special stipulations. Changes will also be made to stipulations #38, now renumbered as #26, and stipulation #28 will be omitted.

- The numbering of special stipulations for Burning Man 2004 will begin at 1, rather than 13. All of the 16 marked conditions and stipulations on the back of the permit still apply to the event.
- Stipulation #38, which outlines timeframes for allowable uses during the permit period, will be changed to be consistent with the 2004 operating plan and authorized use periods. The stipulation will be renumbered to #26 under the new numbering system. Stipulation #26, as amended is shown below:

*The period of use authorized for this event will be August 13<sup>th</sup> 2004 – September 20<sup>th</sup> 2004. Site layout is authorized beginning August 5<sup>th</sup> 2004. Construction of perimeter/boundary trash fence will not be initiated prior to August 13<sup>th</sup> 2004. No temporary facilities other than those required for fence construction are authorized prior to August 13, 2004. The event is authorized for August 30, 2004 at 0001 hours to September 6, 2004 at 2359 hours. Takedown and removal of all above ground material (items that could pose a hazard to other playa users) will be completed by September 20, 2004. The final phase of cleanup and restoration will be completed by October 6, 2004. No permanent structures will be constructed on public land.*

- Stipulation #28 will be omitted, because the exact same language is included in stipulation #15 under the revised numbering system.

The changes described above will be incorporated into the official permit stipulations. I have attached an electronic copy of the permit stipulations, as amended. Please review the revised stipulations and sign the signature block on the last page. Return a copy of the signed stipulations to the Winnemucca Field Office. If you have any questions, please contact Dave Lefevre at (775) 623-1770.

Sincerely,

David C. Cooper  
NCA Manager
