

Amended Survey No.2276.

2. A trench 3x4x74 ft. long, running N 9° W, the S.End of which bears S 87° -20'W, 753 ft. from Cor.No.1 CAP SHIEF Lode. Value ..... \$ 155.00

It is the intention of the claimant to develop the veins at its several locations through this one main shaft by means of crosscuts to the veins and drift thereon when encountered, thus opening the ore bodies at depth.

An undivided 1/7 interest is applied upon each of the locations of this survey.

The other improvements are applied upon the locations upon which they are situated.

INSTRUMENTS.

This survey was made with a Keuffel and Esser Light Mountain Transit. The courses were deflected from the true meridian as determined by direct observation on Polaris at elongation. The distances were measured with 50 and 500 ft. steel tapes.
