

## Survey No. 2420

## Instrument.

This survey was made with a Buff & Buff Light Mountain Transit. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with a 500-ft steel tape.

## Description of Corners.

The S. E. Cor. of Sec. 7 T. 12 N. R. 37 E. Mt Diablo B. & M., is a Quartzite stone marked with 5 notches on the East and 4 notches on the South edges, mound of stones around corner.

Note: - As after a diligent search no corner of the public Land Survey was found nearer to the claim connection was made to S. E. Cor. Sec. 7 T. 12 N. R. 37 E. Mt Diablo B & M.
