

SURVEY NO. 2653 A. and B.

A Deane pump $4\frac{1}{2}$ x $3\frac{1}{4}$ x 4 ft., which bears from Cor. No. 2 of the Joanna Mill Site S. $16^{\circ} 30' E.$ 305.0 ft.

A grade for a building, the N.E. Cor. of which bears from Cor. No. 1 of the Joanna Mill Site S. $26^{\circ} 33' W.$ 70.0 ft., 45 x $38\frac{1}{2}$ ft., course of long side N. $63^{\circ} 37' W.$

All the above mentioned improvements belong to claimants herein.

I N S T R U M E N T.

This survey was made with a Gurley light mountain transit. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with 100 ft. and 300 ft. steel tapes.

D E S C R I P T I O N O F C O R N E R S.

The corner to Secs. 22, 23, 26 and 27, T. 23 N. R. 62 E. of the Mount Diablo Base and Meridian, is a quartzite rock, 18 x 9 x 9 ins. with two (2) notches on south and two (2) notches on East face, with mound of stone alongside.

The $\frac{1}{4}$ Sec. Cor. on the east boundary of Sec. 22, T. 23 N., R. 62 E. of the Mt. Dia. Base and Meridian, is a quartzite rock 6 x 6 x 12 ins. high, marked $\frac{1}{4}$ on South face, with mound of stone alongside.

NOTE: I was unable to find either the $\frac{1}{4}$ Sec. Cor. on the north boundary of Section 26, or the N.E. Corner of said Section, and am therefore unable to describe these corners, but the locus of these corners is es-
