

cut the various lodes at depth,whereby by one system of workings and one plant of machinery the entire claim can be most advantageously and economically developed.

An undivided 1/4 interest in this shaft and these drifts is accredited to each location of this survey.

- 1 The center of the discovery shaft of the Early Bird No.2 lode ,4x6 ft.12.ft.deep in rock,located on the center line 580.ft.from the center of line 3-4. Value \$100.

=====

OTHER IMPROVEMENTS.

NONE.

=====

INSTRUMENT.

This survey was made with a C.L.Berger and Sons Light Mountain Transit. The courses were deflected from the true meridian as determined by the use of the "Lallie" Solar Attachment. The distances were measured with 100.ft. and 500.ft. steel tapes.

Note:- The disagreements between these field notes and the amended location certificates,are due to errors in the latter.

=====
