

3rd The East $\frac{1}{4}$ Cor. Sec. 24 T 19N R 43E, Mt Diablo B. and M. is a granite stone 12x12 ins. by 10 ins. above ground. Chiseled $\frac{1}{4}$ on the West face.

Note.

The disagreement between these field notes and the amended location certificate of the The Eclipse 1st West Extension lode in regard to the length of lode line northwesterly from the location monument and the statement that the S.W. corner is identical with Cor. No. 5 Sur. No. 95 Dollarhide and Defiance lode is due to errors in the latter.
