

SURVEY NO. 3746.

drift, and shaft is credited to each lode.

OTHER IMPROVEMENTS.

There are no other improvements upon the claim.

INSTRUMENT.

This survey was made with a Gurley Light Mountain Transit, with solar attachment. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with 100-ft. and 500-ft. steel tapes.

REPORT.

The lode line of each location of this claim was run directly upon the ground, and the several corners established by means of offsets from the lode lines. All tie lines were run either directly upon the ground or by traverses, run upon the ground and submitted in a separate report herewith.

The cor. of secs. 9-10-15 and 16, T.31 N., R.43 E., Mt. Diablo B. and M., is a dark porphyry stone, 8x7x6 ins. firmly set and marked with 4 notches on S. and 3 notches on E. edges.

Sur. No. 3074, Robert Reich lode:

Cor. No. 3 is a pine post, properly set and scribed with the number of the corner and survey.

NOTE:- The disagreements between these field notes and the location certificates of the Friendly Toad No.1, Friendly Toad No.3, Aurora No.1, Borealis No.1, and Borealis No.2 lodes, with regard to the position of the discovery point, are due to errors in the latter.
