

3 A cut, the mouth of which bears from Cor. No. 4 Independence No. 3 lode $N 46^{\circ} 30' E$. 405 ft. 5 ft. wide, 10 ft. face, running N. - 28.6 ft. to face, in rock. A tunnel, 4.4 ft. x 6 ft. running from face of cut N. $10^{\circ} W$. 31 ft. to face, in rock. Claimants unknown.

4 A cut, the mouth of which bears from Cor. No. 4 Independence No. 3 lode $N 38^{\circ} 30' E$. 462 ft. 5 ft. wide, 6 ft. face, running N. - 16 ft. from mouth to face, in rock. Claimants unknown.

Instrument.

This survey was made with a Buff and Berger transit No. 2438. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with 100 ft. and 500 ft. steel tapes.

Report.

The lode lines of this survey were run directly upon the ground, and the several courses were established by means of offsets from the lode lines.

The S.E. Cor. of Sec. 8 T. 37 N. R. 23 E. M. D. B and M. is a rhyolite rock 6 ins. x 8 ins. x 12 ins. out of the ground, chiseled IIII on the N. and E. sides.

The E. $\frac{1}{4}$ Cor. of Sec. 8 T. 37 N. R. 23 E. M. D. B and M. could not be found, though diligent search was made for it, therefore the official notes of the public land survey were used in computing the intersections of the east line of Sec. 8 with the lines of this survey.

U.S. M.M. No. 208 is a porphyry stone, 6 ins. x 16 ins. 18 ins. above the surface of the ground, set in mound having a 6 ft. base, and 1.5 ft. high.

Chiseled U.S. L.M. 208. In the top of the stone is a drill hole in which is a willow plug and a nail.

Each location monument is of rock 4.5 ft. high, 4 ft. base. In each is a tin can containing the location notice of the respective lode.

Cor. Nos. 2-2 Independence No. 2 and Independence No. 3 lodes was a post 2 ins. dia., 5 ft. high, on which was written N. W. Cor. Independence No. 2 and N. E. Cor. Independence No. 3.
