

8.

Survey No. 3935.

Report.

The N.E. Cor. Sec. 31, T. 32 N, R. 44 E, M.D.M. is a porphyry rock 8 X 9 ins. showing 12 ins. above the ground, surrounded by a small mound of stone, marked with 1 notch on the south side and 5 notches on the east side.

All lines of this survey were run upon the ground.

All intersections with lines of the public land survey were calculated in accordance with the notes of the public survey on file in the Surveyor General's office.
