

INSTRUMENT.

This survey was made with a Berger transit. The courses were deflected from the true meridian, as determined by direct solar observations. Distances were measured with a 500 ft. steel tape.

NOTE:- The disagreements between these field notes and the amended location certificates of the lodes in this claim are due to errors in the latter.

REPORT.

The N. E. Cor. Sec. 27, T 2 N., R 42 E., M.D.B. and M is a stone, 6X8 ins., 14 ins. above ground, marked with 2 notches on the south, and 2 notches on the east faces respectively.

After making a diligent search I was unable to locate any other corners of the public survey, in closer proximity to this claim than ~~the~~ the corner to which this survey is connected.

The various lodes herein mentioned are in the course of development by means of proposed order. It is the intention of the claimant to non-extend on their present courses will develop certain of the veins lying within the lines of this claim. The surface ground expressed within the lines of the various lodes herein mentioned is hereby reserved to the claimant. It is the intention of the claimant to non-extend on their present courses will develop certain of the veins lying within the lines of this claim.

on each location of this claim. An undivided one-ninth interest in this improvement is credited to each location of this claim. The other improvements described above are credited to the respective locations upon which they are located.

OTHER IMPROVEMENTS.

544' north of which bears from Gov. No. 2, Key lode, N 71' W., 700 ft., 4 ft. wide, 8 ft. base, running N 70' W. to base, 20 ft. wide, 20 ft. base, 20 ft. high.
