

Survey No.4171.

3.

proportioned to the Elvira lode. Total value \$5,100.

Undivided 1/3 interest to Elvira lode ----- \$1,700.

Other improvements - none.

Instrument.

This survey was made with a C.L.Berger Mining Transit No. 3246. The courses were deflected from the true meridian as determined by an observation on Polaris. The distances were measured with 100-ft. and 660-ft. steel tapes.

Report.

The common corner of Secs. 4,5,32 and 33, T.31 and 32 N, R.44 E, M.D.M. is a porphyry stone, 8 X 12 X 16 ins., set on end, and chiseled with four notches on the east face and six notches on the south edge. The pits and mound, as described in the Original Township Field Notes, have been obliterated.

Cors.No.3 and 4, Sur.No.1892, Copper Queen lode, are pine posts properly set and scribed with the number of the corner and survey. I found the course of line 3-4 to be S.51°05'W.1468.35 ft. instead of S.51°30'W.1500. ft.

The S.E.Cor.Sec.32, bears S.6°05'40"W.7255.27 ft. from Cor.No.1, Sur.No.1892, Copper Queen lode, instead of S.5°44'W.7247. ft.
