

A frame building the S.E. Cor. of which bears from Discovery Post Opal No. 1 lode N 54° 25' W 395 ft. 14x30 ft. Course long side N 85° 30' E.

A frame building the S.E. Cor. of which bears from Discovery Post Opal No. 1 lode N 37° 30' W 212 ft. 12x16 ft. Course long side N 85° 30' E.

A frame building the S.W. Cor. of which bears from Discovery Post Opal No. 1 lode N 37° 30' W 412 ft. 45x75 ft. Course long side N 65° E. Course short side N 4° 30' W.

INSTRUMENT.

This survey was made with a Lietz Mining Transit No. 5262. The courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with a 660 ft. steel tape.

REPORT

S.E. Cor. Sec. 22 T 2 N., R 42 E., MDM is a rhyolite rock 4x6x10 ins. set in a pile of stone with two nitches on the east and south sides respectively.

Sur. No. 4383 Mammoth and Red Dog Fraction lodes.

All corners are pine posts 4 ins. square, showing 2 ft. above mound of earth and stone and scribed with the number of the corner and survey. I find all courses and distances to be correct as approved.

Sur. No. 4400 Rye Grass, Rye Grass No. 1 and Rye Grass Fraction lodes.

All corners are pine posts 4 ins. square, showing 2 ft. above mound of earth and stone and scribed with the number of the corner and survey. I find all courses and distances to be correct as approved.

Sur. No. 4396 Cille lode No. 1 and Opal No. 3 lodes.

All corners are pine posts 4 ins. square, properly set and scribed with the number of the corner and survey.
