

to face. On 850 level crosscut runs North 100 ft. to face. On 1600 ft. level crosscut runs S 87° W., 353 ft. to face, and N 76° 30' E., 300 ft. to face. Size of crosscuts, 5X7 ft.

Value of additional improvements \$46445.00.

By extending crosscuts in southerly and westerly directions, the veins of all the lodes of this claim will be developed at great depth. The surface ground within the lines of all these lodes, as well as the lodes of Sur. No. 2662, is practically level. This improvement is equipped with a modern hoisting and drilling plant. It is the intention of the claimant herein to prosecute development work vigorously in the near future.

A six-sevenths interest in this additional improvement is claimed as improvements on this claim. An undivided one-sixth interest is credited to each location. The remaining one-seventh interest is credited to the Tonopah Bonanza Fraction lode, belonging to claimant herein.

Other Improvements.

None.

Note:- The disagreements between these field notes and the location certificates of the several lodes of this claim are due to errors in the latter.

Instrument.

This survey was made with a Berger transit. The courses were deflected from the true meridian as determined by direct solar observations. Distances were measured with 100 ft. and 500 ft. steel tapes.

Report.

N. W. Cor. Sec. 33, T 3 N., R 42 E., M.D.B and M, is a stone, 2X6 ins., 10 ins. above ground, marked with 4 notches on the east and 1 notch on the south faces, res-
