Value. \$15.00

OTHER IMPROVEMENTS.

NONE.

INSTRUMENTS.

This Survey was made with a C. L. Berger and Sons Light Mountain No. 4. Transit. The Courses were deflected from the true meridian as determined by direct solar observations. The distances were measured with 6 ft. and 500 ft. steel tapes.

Note:- The disagreement between these field notes and the Amended Location Certificates of the several lode claims embraced in this survey, are due to errors in the latter.

REPORT.

The location of this claim was determined by running the lines of the claims and by traverse lines run upon the ground.

The several Corners established by means of offsets from the lode lines.

All tie lines were either run directly upon the ground or by traverses run upon the ground.
