described as aliquot parts in Section 10, T. 34 N., R. 68 E., M.D.M., Nevada) all of which are contiguous placer claims owned in common and within the range of benefit of said improvements.

These improvements afford the most practical and economical means of developing each of the placers.

Five hundred dollars or over has been expended in these improvements in such a manner as tends to the development of each placer of this survey, subsequent to its location and to the time since which common ownership and contiguity have prevailed; therefore, an undivided one-ninetieth interest in their value is hereby credited to each of the placers.

No portion of or interest in these improvements has been credited heretofore as patent expenditure to any placer claims except as listed heretofore.
