

MINERAL SURVEY NO. 5065

FEET

Total depth of drill holes 57,796. ft.

Total value of expenditures this survey:

\$2,311,840.00

Total number of lode mining claims included in this survey:

38

Allocation of proportionate share of expenditures to this survey:

\$2,311,840.00 divided by 38 = \$60,837.89 per lode

The improvements are in progress for the development of the thirty-eight lodes of this survey, which are all the contiguous lode claims owned in common within the range of benefit of said improvement.

The improvements afford the most practical and economical means of developing each of the lodes.

Five hundred dollars or over has been expended in these improvements in such a manner as tends to the development of each lode of this survey, subsequent to its location and to the time since which common ownership and contiguity have prevailed, therefore, an undivided one-thirtyeighth interest in their value is hereby credited to each of the lodes.

No portion of or interest in these improvements has been credited heretofore as Patent expenditure to any lode claims.
