Total value of expenditures this survey: \$150,880.00. Number of mining claims included in this survey: 10. Allocation of proportionate share of expenditures to this survey: \$150,880.00 ÷ 10 = \$15,088.00.

The improvements are in progress for the development of the ten lodes of this survey, which are all the contiguous lode claims owned in common within the range of benefit of said improvements.

These improvements afford the most practical and economical means of developing each of the lodes.

Five hundred dollars or over has been expended in these improvements in such a manner as tends to the development of each lode of this survey, subsequent to its location and to the time since which common ownership and contiguity have prevailed; therefore, an undivided one-tenth interest in their value is hereby credited to each of the lodes.

No portion of or interest in these improvements has been credited theretofore as patent expenditures to any lode claims.
