FIELD NOTES

OF THE

DEPENDENT RESURVEY OF
THE FOURTH STANDARD PARALLEL NORTH,
THROUGH A PORTION OF RANGE 31 EAST,
PORTIONS OF THE SOUTH, EAST AND WEST BOUNDARIES,
AND A PORTION OF THE SUBDIVISIONAL LINES,
AND THE SUBDIVISION OF SECTION 33,
A METES-AND-BOUNDS SURVEY THROUGH
SECTIONS 14, 22, 23, 27, 28 AND 33,
AND A METES-AND-BOUNDS SURVEY IN SECTION 30,
TOWNSHIP 20 NORTH, RANGE 31 EAST,
OF THE MOUNT DIABLO MERIDIAN,
IN THE STATE OF NEVADA

EXECUTED BY

David J. Clark, Cadastral Surveyor
Clay W. Morrow, Surveying Technician

Under Special Instructions dated October 4, 2005,
and approved October 4, 2005,
which provided for the surveys included under Group No. 831,
and Assignment Instructions dated October 3, 2005 and October 4, 2005.

Survey commenced October 6, 2005

Survey completed April 27, 2007

 Sections 14, 22, 23, 27, 28 and 33 pp. 35 - 40.
 Metes-and-Bounds Survey in Section 30 pp. 40 - 41.

TOWNSHIP 20 NORTH, RANGE 31 EAST, MOUNT DIABLO MERIDIAN, NEVADA

CHAINS

The following field notes are those of the dependent resurvey of the Fourth Standard Parallel North through a portion of Range 31 East, portions of the south, east and west boundaries, and a portion of the subdivisional lines, and the subdivision of section 33, a metes-and-bounds survey through sections 14, 22, 23, 27, 28 and 33, and a metes-and-bounds survey in section 30, Township 20 North, Range 31 East, Mount Diablo Meridian, Nevada.

The north boundary (Fourth Standard Parallel North) was surveyed by U.S. Deputy Surveyor W. Epler in 1865 under Contract "I". The south, west and a portion of the east boundary were surveyed by U.S. Deputy Surveyor E.B. Monroe in 1868 Under Contract No. 10. A portion of the east boundary and a portion of the subdivisional lines were surveyed by E.B. Monroe in 1874 under Contract No. 62. A portion of the subdivisional lines were dependently resurveyed and the remaining subdivisional lines were surveyed by U.S. Deputy Surveyors G.W. Conkling and T.K. Stewart in 1882 under Contract No. 137. The south and east boundaries of section 36 were dependently resurveyed by Cadastral Surveyor S.R. Lambeth in 1992 under Group No. 719. The west one-half mile on the south boundary of section 31, T. 21 N., R. 31 E. (Fourth Standard Parallel North) was dependently resurveyed by Cadastral Surveyor R.A. Pratt in 1992 under Group No. 728.

Before restoring the corners, the lines of the original survey were retraced and a diligent search was made for any evidence of the original corners and other calls of the original field note record.

The rules of proportionate measurement were applied in order to ascertain the position of lost corners, after completing the necessary retracements to connect with identified corner locations. In order to simplify the record, the true line notes only are supplied herewithin, which refer to the completed survey.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973 and the Special Instructions dated October 4, 2005.

Measurements were made with Trimble 5700 Global Positioning System (GPS) receivers using real-time kinematic (RTK) methods and refer to the true meridian based on geodetic methods. The mean bearings of the lines and the horizontal equivalents of ground distance only are entered in the field notes.

The NAD 83 geographic position of the corner of sections 1, 2, 35 and 36, on the south boundary of the township, determined from GPS static observations processed by National Geodetic Survey, Online Positioning User Service (OPUS), utilizing Continuously Operating Reference Stations (CORS) UPS (UPSAL HOBBACK CORS ARP) and GABB (GABB CORS ARP), in 2005, and carried forward by RTK observations is as follows:

Latitude: 39°32'53.738" N. Longitude: 118°27'46.183" W.

The 1982 mean magnetic declination is 16° E., as shown on U.S.G.S. 7 1/2 minute quadrangle map "FOXTAIL LAKE, NEV.", dated 1969 and photorevised in 1982.

CERTIFICATE OF SURVEY

We, David J. Clark, Cadastral Surveyor and Clay W. Morrow, Surveying Technician, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 4th day of October, 2005, we have dependently resurveyed the Fourth Standard Parallel North, through a portion of Range 31 East, portions of the south, east and west boundaries and a portion of the subdivisional lines, and subdivided section 33, executed a metes-and-bounds survey through sections 14, 22, 23, 27, 28 and 33, and executed a metes-and-bounds survey in section 30, Township 20 North, Range 31 East, of the Mount Diablo Meridian, in the State of Nevada, which are represented in the foregoing field notes as having been executed by us and under our direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.
