FIELD NOTES

OF THE

DEPENDENT RESURVEY OF

PORTIONS OF THE NORTH BOUNDARY

OF

TOWNSHIP 26 NORTH, RANGE 48 EAST;

AND THE

DEPENDENT RESURVEY OF

A PORTION OF THE WEST BOUNDARY,

A PORTION OF THE SUBDIVISIONAL LINES

AND PORTIONS OF CERTAIN MINERAL SURVEYS,

AND

THE SURVEY OF A PORTION OF THE SUBDIVISIONAL LINES,

OF

TOWNSHIP 27 NORTH, RANGE 48 EAST,

OF THE MOUNT DIABLO MERIDIAN,

IN THE STATE OF NEVADA

EXECUTED BY

Lance A. Barney, Cadastral Surveyor

Michael E. Swope, Cadastral Surveyor

Under Special Instructions dated May 25, 2010,

and approved May 25, 2010,

and Amended Special Instructions dated September 3, 2013,

and approved September 3, 2013,

which provided for the surveys included under Group No. 895,

and Assignment Instructions dated May 25, 2010, and June 19, 2012.

Survey commenced May 26, 2010

Survey completed September 15, 2013

TOWNSHIP 27 NORTH, RANGE 48 EAST, MOUNT DIABLO MERIDIAN, NEVADA

CHAINS

The following field notes are those of the dependent resurvey of portions of the north boundary of Township 26 North, Range 48 East; and the dependent resurvey of a portion of the west boundary, a portion of the subdivisional lines and portions of certain mineral surveys, and the survey of a portion of the subdivisional lines of Township 27 North, Range 48 East, Mount Diablo Meridian, Nevada.

The south and west boundaries, a portion of the north boundary and a portion of the subdivisional lines were surveyed by U.S. Deputy Surveyors A.J. Hatch and J.H. Eaton in 1869 under Contract No. 30. A portion of the south boundary was independently resurveyed by Cadastral Surveyor L.H. Godwin in 1957 under Group No. 316. A portion of the north boundary was dependently resurveyed by Cadastral Surveyors J.A. Bastian and D.E. Provost in 1979 under Group No. 570.

TOWNSHIP 27 NORTH, RANGE 48 EAST, MOUNT DIABLO MERIDIAN, NEVADA

CHAINS	<p>Before restoring the corners, the lines of the original surveys were retraced and a diligent search made for any evidence of the original corners and other calls of the original field note record.</p> <p>The rules of proportionate measurement were applied in order to ascertain the position of lost corners, after completing the necessary retracements to connect with identified corner locations. In order to simplify the record, the true line notes only are supplied herewith, which refer to the completed survey.</p> <p>The survey was executed in accordance with the specifications set forth in the <u>Manual of Surveying Instructions, 2009</u>, the <u>Special Instructions dated May 25, 2010</u>, and the <u>Amended Special Instructions dated September 3, 2013</u>, for Group No. 895, Nevada.</p> <p>Measurements were made with Trimble R-8 Global Positioning System (GPS) receivers using the real-time kinematic (RTK) method and refer to the true meridian based on geodetic methods. The mean bearings of the lines and horizontal equivalents of ground distances only are entered in the field notes.</p> <p>The geographic positions, in NAD 1983 (CORS96) (2002) for the following corners were determined by GPS static observations processed by National Geodetic Survey, Online Positioning User Service (OPUS), utilizing Continuous Operating Reference Stations (CORS) TUNG TUNGSTEN CORS ARP, AST2 AUSTIN 2 CORS ARP and LKN1 ELKO CORS ARP and carried forward by RTK observations.</p> <p>The closing cor. of Tps. 26 and 27 N., R. 48 E., is as follows:</p> <p style="padding-left: 40px;">Latitude: 40°09'29.755" N. Longitude: 116°30'17.754" W.</p> <p>The cor. of secs. 17, 18, 19 and 20, is as follows:</p> <p style="padding-left: 40px;">Latitude: 40°12'07.390" N. Longitude: 116°35'47.680" W.</p> <p>The 1986 mean magnetic declination is 16° E., as shown on U.S.G.S. 7 1/2 minute quadrangle map "CORTEZ, NEV.", provisional edition, dated 1986.</p> <hr/> <p style="text-align: center;">DEPENDENT RESURVEY OF PORTIONS OF THE NORTH BOUNDARY, T. 26 N., R. 48 E., MOUNT DIABLO MERIDIAN, NEVADA</p> <hr/> <p style="text-align: center;">Reestablishment of a Portion of the Survey Executed by U.S. Deputy Surveyors A.J. Hatch and J.H. Eaton in 1869, and the Independent Resurvey Executed by Cadastral Surveyor L.H. Godwin in 1957</p> <hr/> <p>Beginning at the closing cor. of Tps. 26 and 27 N., R. 48 E., monumented with an iron post, 2 1/2 ins. diam., firmly set in a mound of stone, 4 ft. base, 1 1/2 ft. high, with brass cap mkd. as described in the field notes of the independent resurvey of a portion of the N. bdy., T. 26 N., R. 48 E., executed under Group No. 316.</p>

Reestablishment of the Survey Executed by
U.S. Deputy Mineral Surveyor A.D. Rock in 1889,
Utilizing the Additional Field Notes in
Mineral Survey No. 3207, Executed by
U.S. Mineral Surveyor W.A. Pray in 1909

Maid Queen lode

From Cor. No. 1, Mineral Survey No. 52, Maid Queen lode,
determined at the center of an embedded mound of stone, 3 ft.
base. The position of this mound of stone correlates well with
other existing corners and is accepted as the best available
evidence of the position of the original corner.

At the corner point

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam.,
13 ins. in the ground, over a plastic-encased magnet, and in a
mound of stone, 2 1/2 ft. base, to top, with brass cap mkd.

Access is limited to Fourmile Canyon and Mill Creek. There are some narrow trail roads used for drilling exploration. Elevation ranges from about 9150 ft. on Mt. Tenabo to about 4800 ft. in Crescent Valley. Mill Creek is a perennial stream draining to the northwest with several springs at higher elevation contributing to its flow. Access from the south half of the west side of the township into the higher elevations is hampered by a cliff along the west face of Mt. Tenabo.</div> <div data-bbox="440 894 1409 947">Extensive prospecting and mining activities in the Mill Creek area is evident. Cattle grazing is also evident.</div>

CERTIFICATE OF SURVEY

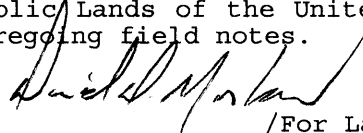

We, Lance A. Barney and Michael E. Swope, Cadastral Surveyors, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 25th day of May, 2010, and Amended Special Instructions bearing date of the 3rd day of September, 2013, We have dependently resurveyed portions of the north boundary of Township 26 North, Range 48 East; and dependently resurveyed a portion of the west boundary, a portion of the subdivisional lines and portions of certain mineral surveys, and surveyed a portion of the subdivisional lines of Township 27 North, Range 48 East, of the Mount Diablo Meridian, in the State of Nevada, which are represented in the foregoing field notes as having been executed by us and under our direction; and that said survey has been made in strict conformity with said special instructions, amended special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.
