

## DEPENDENT RESURVEY, California-Nevada State Boundary.

## Chains

A prominent rocky knob with cairn on top bears  
S.73°41'W.

Land, rolling meadow and broken mountainous.  
Soil, sandy loam, 2d rate, gravelly, 3d rate; rocky, 4th  
rate.

Timber, pinyon, juniper and yellow pine. Much of this  
timber was destroyed in a forest fire in 1947.

Undergrowth, sage and buck brush. Grazing, fair.

The geographic position of Monument No. 19, as calculated  
by the U.S.C. & G.S. is: latitude 38°46'54" N., and Longi-  
tude 119°41'00" W.

S.48°33.3'E., on tangent and true line.

Descend along rocky S. slope, thru timber.

31.50 Ravine, course SW.; ascend broken W. slope.

37.00 Rocky point, change to rocky SW. slope.

40.00 Point for the  $\frac{1}{2}$  mile cor. on the state boundary.

Set an iron post, 3 ft. long, 1 in. diam., 26 ins. in the  
ground and in a flat mound of stone, 6 ft. base, with  
brass cap mkd.

1946

from which

A pinyon, 12 ins. diam., bears N.82°W., 7 lks.  
dist., mkd. NEVADA 19 +  $\frac{1}{2}$  M BT.

A pinyon, 8 ins. diam., bears N.82°W., 14 lks.  
dist., mkd. CALIFORNIA 19 +  $\frac{1}{2}$  M BT.

56.86 Monument No. 20, which is an iron post, 3 ins. diam.,  
firmly set, mkd. and witnessed as described in the field  
notes of the portion of the California-Nevada State  
Boundary resurveyed in 1941.

Land, rough mountainous, general southerly slopes.  
Soil, gravelly loam, 2d and 3d rate; rocky, 4th rate.  
Timber, pinyon, juniper and yellow pine; much of which was  
burned in a forest fire in 1947.  
Undergrowth, burned. Grazing, fair.

There is no final test of the solar apparatus to be  
recorded as the solar attachment was used to determine the  
course only at the initial point of the resurvey. This  
course was verified by observation on Polaris, as shown in  
the field notes, and the line was carried forward on  
tangents between consecutive monuments, by means of  
backsight and foresight signals.
