

## Fourth Standard Parallel.

Not having been furnished previously by the Surveyor General, with the necessary data & not knowing how far East the Fourth Standard Parallel had been established, I commenced at the corner to Townships 21 North, & between Ranges No. 19 & 20 East of Mount Diablo Meridian, on said fourth Standard Parallel, and ran, thence East, Eighteen Miles finding all the corners established, according to instructions, and at this point the established corner to Townships No. 21 North, in Ranges No. 22 and 23 East of the Mount Diablo Meridian
