

## Description

This is an isolated  
Township, surrounded on the  
East, South & West by high-  
rocky mountains and stony  
sandy plains, destitute of  
water & vegetation, which  
renders the lands of the East  
& South for a distance of  
at least thirty miles totally  
valueless, and on the  
West, save a narrow strip  
on Truckee River the land  
is of the same character  
as that above described.
