

## South Boundary of Township 20

Chains Begin at the corner to Townships  
Nos. 19 & 20 North Ranges 21 & 22 East  
of Mount Diablo meridian I ran  
West, on a Random line along the South  
boundaries of Secs. 36, 35, 34, 33, 32  
and 31

Variation  $16^{\circ} 42'$  East  
(found by transit observation of Polaris)  
I set temporary mile & half mile  
posts at every 40 & 80.00 chains  
and at 5 miles 77 chains and 70  
links. I intersect the Guide  
Meridian or West boundary line  
45 links South of the established  
corner to Townships 19 & 20 North  
Ranges 20 & 21 East, said corner  
being a stone in stone mound  
& marked as per instructions.  
Therefore the correction will  
be  $7\frac{1}{2}$  links north per mile  
from which corner I ran
