

9th Standard Parallel

J. Bannard T. H. M. A. 29 E

Ch,

would touch and ~~found~~
the distance from the
last corner, ^{as established} to a point
on the shore of Lake
in line to be 91,40
Chs.

General Remarks

The Country traversed
by this Standard is
diversified as to
surface, but little
of it is shortly ag-
ricultural, and
that part lies im-
mediately adjacent
to E Walker River
A large portion is
valuable as stock
range and a con
