

118 North Boundary T 23 N R 20 E

From the Established corner to
Townships 23 and 24 N between
Ranges 20 and 21 E I run

West on a Random line along North Boundary of
Township 23 N Range 20 E
Var $17^{\circ} 8' E$

I set temporary $\frac{1}{2}$ mile and
mile posts at every 40,00 and
80,00 chains. I find the Township
line to be 6 miles 3 chains 25-
links and the falling to be 2 chains
and 90 links North of the
Township corner. The correction
for the true line will therefore be
 $48\frac{1}{3}$ links South per mile
and the course of the true line
will be $N 89^{\circ} 39' E$.

From the corner ^{to Townships} 23 and 24 N
Ranges 19 and 20 E I run

$N 89^{\circ} 39' E$ on a true line along the North Boundary and to
descend Var. $16^{\circ} 45' E$

43., 25-

Set granite stone $19 \times 12 \times 9$ as per
