

Bet. Townships 18 and 19 N. Range 26 E

From the corner of Townships 18 and 19 N. Ranges 26 and 27 E I run west on a random line between said townships. I set temporary half mile and mile posts at every 40. and 80 chains and at 5 miles 79 chains and 24 Links intersect the eastern boundary of Township 18 N Range 25 E 83 Chs S. of the corner.

The course of the true line will therefore be $S 89^{\circ} 54' E$.

From the corner of Townships 18 and 19 N. Ranges 25 and 26 E. I run $S 89^{\circ} 54' E$ on true line bet sees 6 and 31
for $16\frac{1}{4} E$

- 11.50 low ridge - N & S
15.00 foot of hill - N.E. & S.W.
25.50 Summit of line on N. slope of hill
39.24 Set a Barott rock 16 x 14 x 10 as per instructions on N. slope for $\frac{1}{4}$ sec. cor.
75.00 Commence steep descent - N.W. and S.E.
