

## General Description.

### 8<sup>th</sup> Standard.

Ranges 35.36 between T. 40. 41. N. lays  
partly in foot-hills, and mostly  
in an alkali flat, which runs  
2 or 3 miles south of the line,  
where good Sage and grass  
land begins.

Range 37. E. between T. 40. 41. N. lays  
mostly through the pass from  
Snake River Valley into  
Paradise Valley. Soil is good  
and well watered.

### 9<sup>th</sup> Standard.

Range 36 E. between T. 40. 41. N.  
Mostly mountainous, well  
watered, fine Stock Range  
and considerable good land  
for cultivation.

Range 37 E. between T. 45. 46. N.  
West half mountainous and  
unfit for cultivation.  
East half lays through
