

land however in those sections being covered with coarse Rye Grass. The most of the creeks from the mountains sink by the time they reach the West boundary of the Township. During very high water in the Spring they do not reach the River through any regular or definite channel, but spread out over the flat. The northern and Western portion of the Township is covered by an unusually heavy growth of Sage Brush, and is excellent grain Soil.

Buffalo Springs are situated in the S.W. 1/4 of Sec. 22, and furnish splendid Water.

We hereby certify that we assisted Obed Alley Palmer Deputy Surveyor in surveying the exterior boundaries of Townships 41, 42, 43, 44, and 45 North Range 36, 37 East, and Township 41, North, Range 35 East, also in subdividing Townships 41, 42, North, Range 37 East, of the Mount Diablo Base and Meridian, and that
