T 14 N R 24 E Subdivision

In order to test the adjustment of my transit for the subdivision of this Township, I began at the corner to secs 13 & 24 on the E bay, and ran on a blank line over the E. bay. of sec 13 N 16.35' E, at 40.03 ch $\frac{1}{4}$ cor is 3 lks W and at 80.05 the cor to secs 12 & 13 is 4 lks W. It is evident that my transit is as near in adjustment as may be.

Begin at the corner to secs 13 & 24 on E bay of Township and run West on a true line bet. secs 13 & 24
