and wire mound of earth as per instructions for 1/2 sec. Cor.

8000 feet a cedar post with choiced stone dig pits
and wire mound of earth as per instructions
for cor. of Townships 18 & 19 N Bonges 66 567 E
level alluvial 1st rate with sparse bush
and heavy sage bush

This line runs up through the bottom over
a good soil covered with grass sage & green
bush - There are numerous springs along
the western border of the bottom and the
water comes near the surface of the ground
over nearly the whole bottom
