 and raise mound of earth as per instructions
 for cor of Townships 18 N 19 W Ranges 67
 and 68 E.

rolling gravelly W slope with doge brush
 and some greas brush

This line runs up along the eastern
 edge of the bottom which is rather barren
 then - and in wet seasons covered with
 water forming a lake - after leaving
 the flat the line ascends along a gravelly
 W slope with a 3^d rate soil covered
 with sage & some greas brush
