Notes on the

The North, East and South Boundaries of this Township running over an Alkali desert of worthless soil were not run. For field notes of W Boundary see notes of T 28 N R 19 E

General Description

Nearly the whole of this Township is an alkali desert unfit for cultivation and mostly barren. A small portion in the Western part, between the desert and the low sandy hills, is good arable land, covered with sage brush and bunch grass, suitable for raising a medium crop of grain and is now occupied by a
