

General Description

The Eighth Standard Parallel North, running west from the corner to Ranges 31 and 32 passed for the first six miles over nearly level ground, covered with greasewood, and soil being below the average. Thence to the corner of Ranges 31 and 32 over land rolling or hilly, covered with greasewood, Sage Brush and Bunch Grass, suitable for grazing purposes.

If extended west from the corner to Ranges 31 and 32 it will pass over high rolling ground, covered with Sage Brush and scattering Bunch Grass.
