

Random line between T 12 and 13 N. R. 65 East.

Beginning at Township cor, to
Townships 12 and 13 N Range 64
and 65 East I ran East on
random line between T 12 and
13 N. R 65 E. Setting temporary
half and mile stakes at each
40 and 80 Chains.

Magnetic $\text{var } 16^{\circ} 30' \text{ E.}$
and at a Point ^{5 miles} 78.54 Chains I
intersected $\frac{1}{2}$ link S of Town-
ship cor to Township 12 and 13
N Range 65 and 66 E.

Therefore my correction will be
1.46 Chains West and 13 link
North per mile

Thence from Township cor
of Township 12 and 13 N. Range
65 and 66 E. I ran $S 89^{\circ} 55' \text{ N.}$
on true line between sec 1 and
