# North Range 51 Ebel.

Lands high broken & mountainous,  
with bunch grass & sage brush.  
Line not extended further E. it passing  
over rough broken mountains, almost  
impracticable. Aug 24. 1894

---

## General Description.

In Range 48, the line passes over a  
rolling base of the Shoshone range. The  
soil is stony and the growth is sage  
brush with some bunch grass.

In Ranges 50 & 51 E. the country is  
rolling hills, covered with a fine  
growth of bunch grass, and is fine  
for grazing purposes. The soil is fair.  
The mountains in Sec 33 of T. 16 N. E.  
are rough and rocky and prevent  
the extension of the line.
