

Ex teriors Bet. Rs. 18+19 E T 42 N-

Apr. 17th Ex teriors commenal 1849

The south boundary of T 42 N R 18 E passes over very high rough and rocky mountains and as the land is of no use and will never be desired I did not run the line.

Having ascertained the variation of the magnetic needle by an observation on Polaris to be 14.45 E I commence at the established corner to T_s 41 & 42 N R_s 18.19 E
