

8th Standard Parallel North M.D.W.

22

General Description

The 8th Standard Parallel North, running West from the Standard Cor to Ranges 62 and 63 passes over level land, with good soil for 1 mile 37 ch; thence over rolling hills covered with Sage brush and thick grass, with good soil, but mostly too hilly for cultivation to a point 24 ch West of Standard Cor to Ranges 61 and 62; thence over slightly rolling ground, all suitable for cultivation, and possessing good soil, mostly covered with Sage brush and grass, with fine level meadows in the creek bottoms to the closing Corner to Township 40 North, Ranges 59 and 60 East.

If extended farther West, it would pass over high rough broken hills for a considerable number of miles
