1F

5th Standard Parallel along.

S. 93. T. 20 S., R. 61 E., Mt. D. M.

Chains. J. M. Brunt & W. H. Proctor July 1. 1881.

Survey made with Burt's Patent Improved Solar Compass, nearly new, and in first rate order. Made by W. & L. E. Gurley of Troy New York in 1881

Instrument examined and compared with the true meridian at Virginia City April 28. 1881. and found correct. At noon on July 1st 1881 I set my instrument at the Standard Cor. to Tp. 20 S. Rs. 60 & 61 E. Mt. D. M. I carefully examined all the adjustments and found them correct. I took the latitude and found it to be 36° 9' N and proceeded to survey as follows:—

From the Standard Cor. to Tps. 20 S. Rs. 60 & 61 E.

I run,

East. on a true line on S. B. of Section 31

Va. 15° 17' East.
