Survey made with Burt's Patent Improved Solar  
Compass, nearly new, and in first rate order. Made  
by John Roach, of San Francisco  
Cal. in 1880.

Before proceeding to subdivide this Tp., I made a  
change of 5 minutes in the latitude arc of my  
solar compass by subtracting same from  
the reading previously given, and at noon verified  
and corrected same by observation on the  
further tested instrument by reversing.
