

Survey made with Buhrs Patent Improved Solar Compass nearly new in first rate order made by John Roach of San Francisco, instrument examined and compared with the true Meridian, at Reno Nev. July 23 1887 and found correct at noon Aug 5 '1887.

I John C. Gump placed my Solar on the 9th Standard Parallel North at the Corner of Rgs 49⁴⁰ 50 E which is a Granite Stone 24 16 + 12 firmly set in the ground and a mound of Stone around it - I very carefully took the Latitude of the place and found it to be $41^{\circ} 50' N$. I run West from this point on a true line and I find that a number of the corners are missing and that several are out of line as neither township N or P of line has been subdivided I therefore determined to retrace and reestablish all corners in R 49 E.

From the Cor. to Rgs 49⁴⁰ 50 E on Ninth Standard Parallel North I run
